

# THE MANY DEATHS OF VINCENT THOMAS

A Comprehensive Guide

SIX FINGER HAND

VI-011

Between April and June of 2016, an upwards of 300 videos were published to the internet and subsequently deleted by June 8th. They profile a man who we will refer to as Vincent Thomas. Vincent's intentions were clear: to provide the public a tour of the reservoir behind his house.

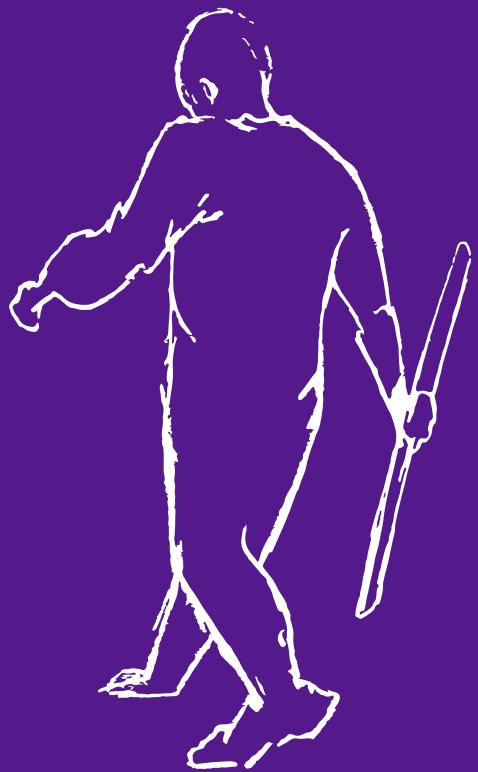

We do not condone or vilify Vincent's actions, all of which took place unaware of our presence. None of the following text or imagery has been fabricated or altered in attempt to paint Vincent in a certain light.

## SYNOPSIS

CHEYENNE, WYOMING 2016

The tour begins. First, Vincent must question others the morality of this new venture finding positive affirmation. He makes his rounds about the reservoir, greeting his fellow patrons, and pointing out the park's notable features.

After a brief look inside his home life, Vincent is again amongst the trees. A variety of objects scatter the ground, all of which play a significant role in his activity. Vincent utilizes his staff, putting forth a brutal assault on the surrounding vegetation. The tour continues.

Vincent begins to distance himself from others, and observes their activity from afar. He engages in multiple spoken confrontations, one of which results in a strong request for him to cease his documentation of the reservoir. His activity is described as 'strange'. With shattered confidence, Vincent vows harm upon another. He begins preparing his weapon of choice; molotov cocktail. The tour continues.

Fire. Vincent displays his true love for arson, and flames scatter the reservoir. The molotovs soon do not suffice, and jugs of gasoline are utilized. The results are drastic, however, as soon as it began, it ends. Vincent looks to the sky, spotting some of his favorite aircraft. He openly admits his true intentions are not what they seem, he means no harm. Vincent proceeds to antagonize a knife-bearing patron of the park into a showdown, wielding a piece of rebar. They exchange few words, and as his rival exits the park in defeat, Vincent abandons his weapon. The tour is over.

## INTRODUCTION

This is Vincent Narrative. I'm not hardcore cause I don't show it.

I could have been rich and famous, but I'm not because of them in my head.

## 01

"YOU'RE HERE. MUST BE READING SOMETHING INTERESTING."

I'll be cooler with a tan and muscles and shit but other shit took my time. I'll never be jersey shore. I meant cool, like nice, in a bad way. I'm not authoritarian.

A kid is just baggage. I don't want one.

Forget the math.

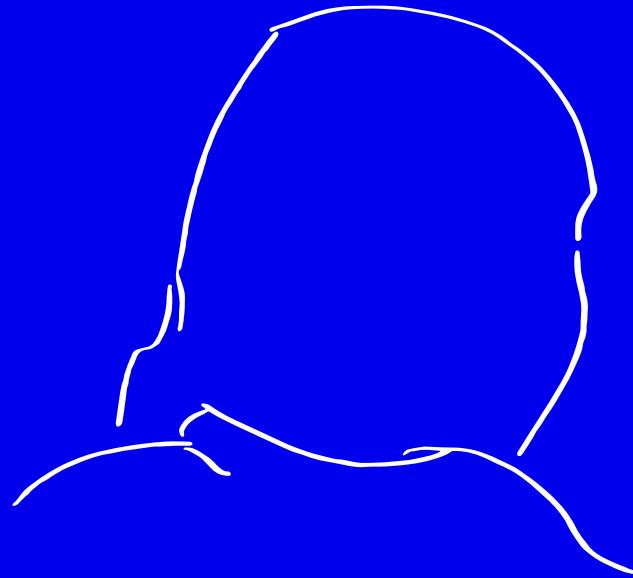

Brain dumping shit. It's gold to wrong people.  
Ironic. (High)

And I was a blind brainwashed idiot.

This a mein kampf, though. That's what you're reading. You wouldn't like me. I'm not respectful.

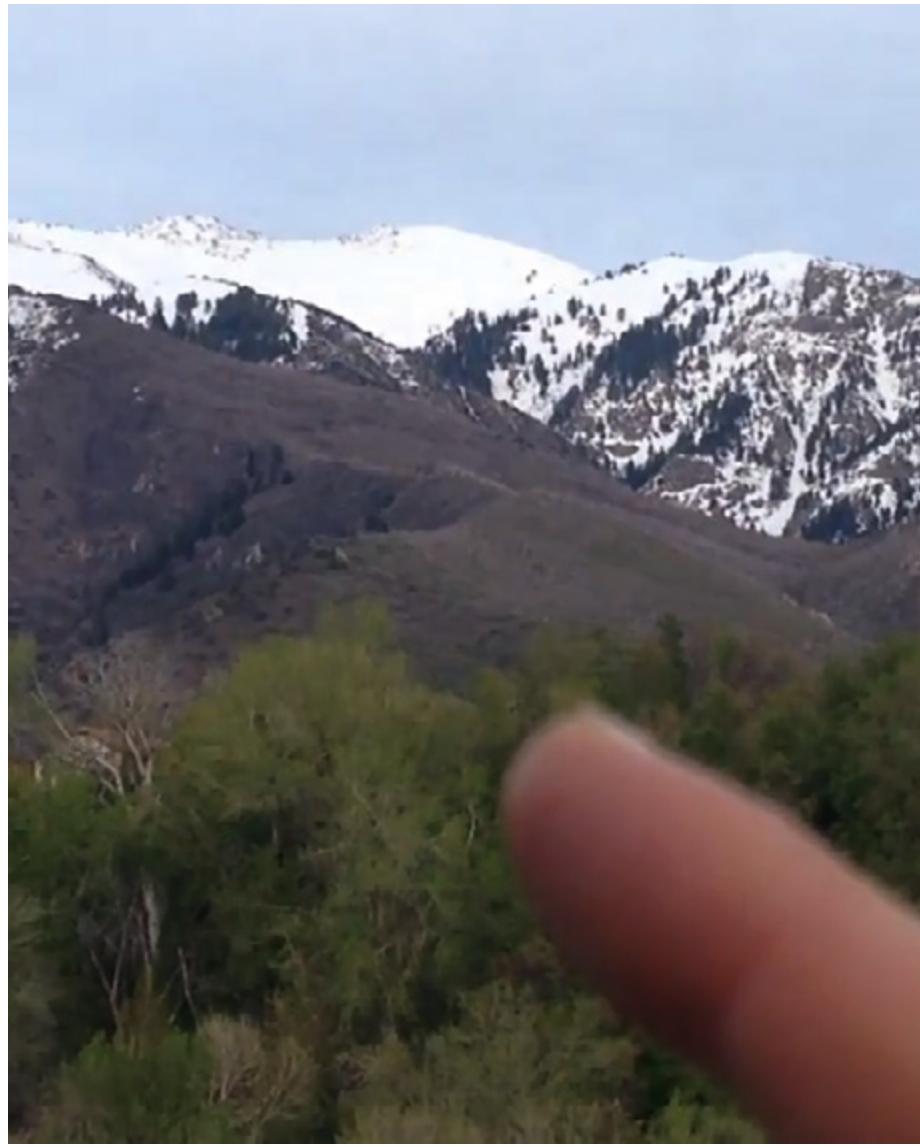

I'm the face of the far right in USA.

Time to quit, even if the best light bulb I ever had shows up. It showed up.

Not making money is the only worry I really have now. People seeing a basement bum, but I'm cutting them off now. Being around people who see a basement bum is not living, when famous people are spitting on me and shit.

These people live, in my head so I have to hate the one on the bottom.

Having some money is a curse and it always killed me.

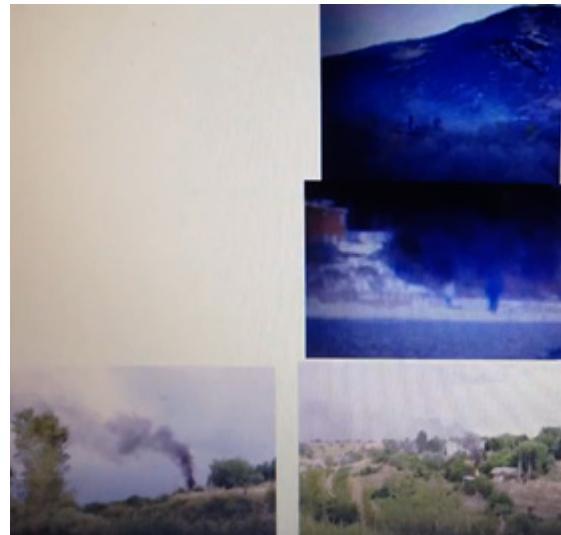

Kill your insides worrying about demographics and shit. I see It moving toward a more ranked social system.

GEAR

I have the lazers like nobody else.

The rich can't live at the bottom. Trust me. I can walk on the freeway for example. No famous could do that.

03

"I LIVE IN FREEDOM AND DO WHAT I WANT.  
LOL!"

I'm alone. I have to hit.

I like being meaner and faster and free. Not tied down... I could go to the homeless shelter and live.

No shit I felt physically invisible.

"I'VE NEVER BEEN A CUTTER OR SHOOTER.  
ONLY A BASHER."

Only enough wrestling to escape. MMA and that shit...I would be nothing there, smoking now and shit, and no skill. Nope...Was on steroids benching 315 when 21 but only down from there ever since. You could see it then...Big difference. In high school I won every fight and they were my size. Moved to Virginia and lost one and another and dislocated a shoulder. Suburban white boy with mean reputation joins navy and meets mean motherfuckers in urban parking garage with same attitude and drunk. Live and learn. Then there was no reputation and glory... only a fight where looking cool didn't matter at all. I've knocked people out with a punch they saw coming before but I didn't keep going when they dropped. They weren't an enemy though.

I break rules to break them and that's it. Running stop lights and small shit every- day, all the time, without hesitating.

Not a rocket.

I'm always a rocket, no matter how hard I try not to be, and it kills me no matter what I say or do.

I'm always a fight, all the time with no rules.

Enough shit talk. Hunt me down.

I'm foot soldier today, so I said it. I'll live, even if life gets worse than death.

I don't hang out with a stick all the time. That looks stupid and threatening.

Just fuck around hitting shit and making paths. I don't have an ambush set up and I'm not a ninja.

OTHERS

I'm always violent.

Real people don't read.

Techno punch you, cause I'm a pussy.

Guns at me. All people are dangerous.

Winning is to become them, and I won't.

Anyway, I'm small with no skill, and an illegal stick(if red) so I'll end it there. It's anti-social to carry it.

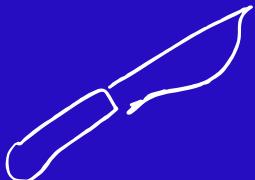

I spit at these family hikers coming at me with that shit. They make me the bad guy and they do the abuse of power every time.

Respect blunt force. That's always been my choice over a knife in the real world.

Filming people is risking being a rat if they're cool down there so I don't really know. I just want to live life and not let the world in.

"EVERYBODY IS COOL FAR AWAY, RIGHT?"

"THAT SHIT IS A FAIRY TALE AND I LIVE IN  
THE SPACE AGE."

I'm kicking around cocktails to show how they won't bite to people but I give up now. Gas isn't good at burning wood alone. Burn your flags with that shit. Flinching is pointless. It's not really explosive. It's a weak ass weapon in combat but could be good for property damage. I would laugh if you threw one at me. Sport throwing looks cool. It's not that easy. Light and throw. Don't fuck around and let it heat up. The liquid gas keeps the whole thing cool though. If I had a target I could burn a house down without leaving a trace, but that's coward shit.

Prison eats people who are strong on the outside. It eats their muscles first, and then picks away at them. They were all my enemy, and I changed. Taught me how to live and learned why they never respected me over 6 months.

That didn't work with prison guards. They hit when they could but I don't hate them. The governor made them do it. Made me live with cell mates. Ended bad every time.

FIRE

"JUST LOOK DOWN ON ME AND MAKE ME AN ARSONIST. I'M NOT."

07

Bring like two shots of gasoline to the next protest and you wont regret it. A little tiny amount goes a long way. The secrets of gas are not in quantity. You have to fuck with it to see things. That painted square makes it 4 times as effective with air flow and shit. Don't even need fuel (wood and shit). Heat, Fuel, Oxygen are the three. Gas is like play dough to me now. It is my bragging right where jogging was before.

No point in arguing with me, though. I'll win.

Know who you are.

AIRCRAFT

Born: January 13, 1978 Whiteman Air Force  
Base. Johnson County Missouri. Made by the  
evil white to fit the bible.

Wanna talk. Go ahead if you're smart in your  
head. I grew up on the military bases. I know  
your mind.

08

"WHERE THE FUCK IS MY RIDE TO END  
THIS STORY."

I was being threatened before I arrived. That's why I'm watched. Didn't get fame or anything. The guy three streets down has HAARP like me. Bumper car houses and taxes on the heating element. They cheated someone, though. Didn't give me anything wover him. It's defense and he doesn't have the same need. I still got the guillotine, just didn't pass out like I would have as someone else. He can be good, unlike me. Evil and free, and the rich are not helping me. Like the cop on the street, I know their money is harming me. Hoping not to be recognized is how I would go into the homeless shelter to start a new life. Knowing as a poor is knowing to be afraid of yanking out a knife or something. None of them know. None of them see. It's conspiracy theory talk to them.

## FINALE

09

Game over. The end.

I was the insane guy who thought he was someone in the world for a while there, and I was nothing.

That's all there is. Showing my cards. They were forced on me. I live it.

Now I have something more than I did.

Strange shit is possible, and you won't get fear here. The end.

I'm still alive and moving forward. Death is nothing anyway and I really mean that...

Threatening to kill people or make money from this is a dead end. Dumping all this shit and not living on the internet is what I'm doing. Shutting down computer and shutting the fuck up.

Decoding the bible will lead you to Vincent Thomas. Besides, look where I live. I was obviously set up here and will never figure out the whole real story.

## TOUR

10

Sit here and become something, when I'm really nothing.

I was dating someone who wouldn't acknowledge cloud pictures and told me to get a job 1,000 times. No love.

Don't frown, smile. Frowning and hate are bad for the insides.

Now we know where were at and it's funny cause I'm small and a pawn.

Nothing ever did happen and not knowing didn't hurt anybody. Now I'm back with people I know in reality and shit.

Can Vincent Thomas loose it. Probably not. This is always moving, and never a sudden rise.
